 Diameter: 3.25" / 8.3 cm
 Max Pressure: 3000 psi / 207 bar
 Weight : 4.95 lb. / 2.3 kg
 Surface Air Duration: About 20 minutes

Toe-in surfers used Spare Air for an air supply when large waves would keep them underwater. The problem was getting the unit into their mouth in the tumbling surf. Our solution was to mount the unit in a vest especially designed for hands free operation while wearing a PFD. The design carries over to Kayaking, White Water Rafting, and any water based extreme sport.

*based on 1.5 liter breath size

Specifications HEED 3 Model 175-001

Max Capacity: 1.7 cu ft / 48 liters
