

The Diver's Reserve Parachute

Underwater photo by benjaiglesis.com

A skydiver wears a reserve parachute, a SCUBA diver should have a reserve breathing system. For over 35 years we've supplied divers with the smallest, most-compact redundant system available for out-of-air emergencies. The patented SPARE AIR should be a standard piece of SCUBA diving equipment for the safety minded diver. In an out-of-air emergency, why would you trust your life to anything else? Visit SPAREAIR.com to explore the wealth of information about our product, and read stories from divers who are alive because of SPARE AIR.

A better choice...
...than Pony System, Octopus or Buddy Breathing.

Original Manufacturer Made in the USA!
Over 300,000 sold since 1979.
Tested & approved by the US Navy.

SPARE AIR is Refillable!
Fills from SCUBA tank, local dive shop, breathing air compressor, or hand pump.
