

# Where is your next breath?

The Spare Air® Xtreme manufactured by Submersible Systems is a compact, lightweight and reliable self contained breathing apparatus. The Xtreme is designed to allow athletes more time to self-rescue from the dangers of extreme sports like tow-in surfing and kayaking. In an emergency, your mind and body disregard years of training and are overtaken by centuries of built-in survival instinct. Most emergency situations require a few moments of thought to determine the best action. A few extra breaths could mean the difference between life and death!

- Provides lifesaving air preventing panic and allowing users extra time to evaluate and act.
- Ideal for all extreme sports that involve water.
- Simple, compact design is less complicated to use and repair than competing models.
- Always-on design is ready to deliver air when you need it.
- Refillable from an air compressor, hand pump or scuba tank.
- Includes custom neoprene vest that places the Xtreme below your mouth for hands free operation. The adjustable vest fits beneath or above PFD for comfort and accessibility.

- ★ Over 300,000 systems sold worldwide.
- ★ Off-the-shelf, available for delivery now.
- ★ Affordable.
- ★ Proven Design!
